## 111<sup>th</sup> Congress, 2<sup>nd</sup> Session

---

**FIRST SESSION CONVENED:** JANUARY 6, 2009

**ADJOURNED:** DECEMBER 24, 2009

**DAYS OF SESSION:** 191

**SECOND SESSION CONVENED:** JANUARY 5, 2010

### July/August Congressional News (July 29, 2010)

After just having returned from the 4<sup>th</sup> of July recess, Congress works to secure a monumental financial regulatory reform package, which was conference the final week of June. The final vote occurred in the Senate on July 15<sup>th</sup>, passing by a vote of 60-39. The 2,300 page legislation has provisions for the creation of a new consumer protection agency, and a myriad of other provisions, which intend to limit discretionary fees, and quell risky activities of the financial industry. The President has signed this measure.

Arizona Senators John McCain and Jon Kyl have also just dropped a version of the Tri-State Shooting Range bill. The measure proposes a BLM land exchange for purposes of constructing a shooting facility to be operated by the Arizona Game and Fish Department. This measure is a companion measure to [H.R. 2100](#), a House version sponsored by Congressman Trent Franks (CD-2). The bills are not identical as this new iteration, [S.3565](#), notes that the environmental assessment dates 2/8/10 is sufficient to serve requirements under NEPA and NHP, and will not be subject to judicial review. The language in the McCain/Kyl version also meets prior concerns involving a categorical exclusion under NEPA. In the new iteration, the language stipulates that the Commission may decline the exchange, and therefore not subject to administrative costs in the event the exchange could not occur. On August 6<sup>th</sup> the **Commission voted unanimously to support** this iteration of the land exchange bill.

The "Clean Energy, Community Investment and Wildlife Conservation Act," [S.3587](#) was also recently dropped in mid-July by Senators Harry Reid (Majority Leader-NV) and Senator Jon Tester (MT). The measure promotes renewable energy projects with a revenue sharing provision, which would apportion a certain percentage of royalties collected from those projects for conservation and hunter/angler access purposes. The substantial amount is intended to monitor and mitigate for impacts to wildlife, hunter access and habitat as a result of the development of wind/solar development. There are also provisions that pertain to competitive public land leases for these projects to be managed by the US Dept. of Interior with 25% of the revenue going back to the state or county. This measure will not be taken up until after August Recess, as noted recently by Senator Reid. The following provisions delineate the positive aforementioned impacts to the state:

- (2) USE OF FUNDS-** Amounts in the Fund shall be available to the Secretary, who may make the amounts available to the State, Federal agencies, or other interested parties for the purposes of--
- (A) mitigating impacts of renewable energy on Federal land, including--**

# Congressional Courant

- (i) protecting fish and wildlife corridors and other sensitive land;
- (ii) restoring fish and wildlife habitat; and
- (iii) securing recreational access to Federal land through easement, right of way, or fee title acquisition from willing sellers for the purpose of providing enhanced public access to existing Federal land that is inaccessible or significantly restricted; and

On a global scale, through the Office of the US Trade Representative and World Trade Organization (WTO), negotiations are ongoing for establishing new international limits on fishing subsidies that perpetuate overfishing and exhaustion of resources. The Assistant US Trade Representative for Environment stated that during this round of WTO negotiations, despite some stumbling blocks, he anticipates that by the conclusion of the Doha (Qatar) talks to include some sort of limitation on these subsidies.

Congress has also begun work for consideration of the FY-2011 budget package. As of the 1<sup>st</sup> of August, they have moved half of those feed bills through Appropriations hearings with favorable reports.

Arizona Congressman, John Shadegg (CD-3) recently dropped a measure which would prohibit the trade, sale, import/export of billfish or any product containing billfish (sailfish, marlin, etc.)
